

Horus Music is a global music distribution, publishing, and label services company that empowers independent artists and right-holders. Founded in 2006 and headquartered in the UK with international offices, the company provides worldwide digital delivery, royalty collection, and tailored artist promotion.

Company Overview

- **Founded:** 2006 in the UK, with expanding global operations including hubs in India, Nigeria, and Brazil.
- **Core Mission:** Empowering independent creators by maximizing their global reach while ensuring they retain full ownership of their master recordings and creative control.
- **Recognition:** Past winner of the Queen's Award for Enterprise (International Trade).

Key Services

- **Global Distribution:** Delivering audio and video content to over 100 digital download and streaming platforms worldwide (such as Spotify, Apple Music, and Amazon Music) while letting artists keep 100% of their royalties on standard distribution tiers.
- **Music Publishing:** Administering original compositions and registering catalogs with global collection societies across more than 110 countries to secure performance and mechanical royalties.
- **Artist & Label Services:** Offering dedicated account managers, strategic marketing campaigns, playlist pitching, and sync licensing opportunities for developing and established talent.
- **White-Label Solutions:** Providing custom infrastructure systems like *My Client Zone* to help external partners launch their own digital distribution frameworks.
